Dividend Declaration:

DELAWARE INVESTMENTS® DIVIDEND AND INCOME FUND, INC. ANNOUNCES DIVIDENDS

PHILADELPHIA, January 2, 2009 — Today, Delaware Investments Dividend and Income Fund, Inc. (the “Fund”), a New York Stock Exchange-listed closed-end fund trading under the symbol “DDF,” declares a monthly dividend of \$0.0575 per share. This dividend is payable January 30, 2009, to shareholders of record at the close of business on January 16, 2009. The ex-dividend date will be January 14, 2009.

The \$0.0575 per share dividend represents a decrease of \$0.0225 per share from the previously declared monthly dividend of \$0.08 per share, beginning with the dividend to be paid on January 30, 2009. The reduced monthly distribution reflects the impact of ongoing economic and market volatility and its effect on the amount of available capital gains and net investment income earned by the Fund. Given the challenging overall market conditions that exist, the Fund’s distribution rate was decreased to a level closer to the net investment income and capital gains currently expected to be generated by the Fund. The Fund continues to evaluate its monthly distribution in light of ongoing economic and market conditions and may take further action in the future.

The Fund is a diversified closed-end fund. The primary investment objective is to seek high current income; capital appreciation is a secondary objective. The Fund seeks to achieve its objectives by investing, under normal circumstances, at least 65% of its total assets in income-generating equity securities, including dividend-paying common stocks, convertible securities, preferred stocks, and other equity-related securities. Up to 35% of the Fund’s total assets may be invested in nonconvertible debt securities consisting primarily of high yield, high risk corporate bonds. In addition, the Fund utilizes leveraging techniques in an attempt to obtain a higher return for the Fund. There is no assurance that the Fund will achieve its investment objectives.

The Fund has implemented a managed distribution policy. Under the policy, the Fund is managed with a goal of generating as much of the distribution as possible from net investment income and short-term capital gains. The balance of the distribution will then come from long-term capital gains to the extent permitted and a return of capital.
