Dividend Declaration:

**DELAWARE ENHANCED GLOBAL DIVIDEND AND INCOME FUND
ANNOUNCES DIVIDENDS**

PHILADELPHIA, May 28, 2010 — Today, Delaware Enhanced Global Dividend and Income Fund (the “Fund”), a New York Stock Exchange–listed closed-end fund trading under the symbol “DEX,” declares a monthly dividend of \$0.1025 per share. The dividend is payable June 25, 2010, to shareholders of record at the close of business on June 11, 2010. The ex-dividend date will be June 9, 2010.

The Fund's primary investment objective is to seek current income, with a secondary objective of capital appreciation. The Fund invests globally in dividend-paying or income-generating securities across multiple asset classes, including but not limited to: equity securities of large, well-established companies, securities issued by real estate companies (including real estate investment trusts and real estate industry operating companies), debt securities (such as government bonds, investment grade and high risk, high yield corporate bonds, and convertible bonds), and emerging market securities. The Fund also utilizes enhanced income strategies by engaging in dividend capture trading, option overwriting, realization of gains on the sale of securities, dividend growth, and currency forwards.

Under normal market conditions, the Fund will invest: (1) at most 60% of its net assets in securities of U.S. issuers; and (2) at least 40% of its net assets in securities of non-U.S. issuers, unless market conditions are not deemed favorable by the Manager, in which case, the Fund would invest at least 30% of its net assets in securities of non-U.S. issuers. In addition, the Fund utilizes leveraging techniques in an attempt to obtain higher return for the Fund. There is no assurance that the Fund will achieve its investment objectives.

The Fund has implemented a managed distribution policy. Under the policy, the Fund is managed with a goal of generating as much of the distribution as possible from net investment income and short-term capital gains. The balance of the distribution will then come from long-term capital gains to the extent permitted and, if necessary, a return of capital.
