

FOR IMMEDIATE RELEASE

Dividend declaration:

**DELAWARE ENHANCED GLOBAL DIVIDEND AND INCOME FUND
ANNOUNCES DIVIDENDS**

PHILADELPHIA, November 2, 2012 — Today, Delaware Enhanced Global Dividend and Income Fund (the “Fund”), a New York Stock Exchange–listed closed-end fund trading under the symbol “DEX,” declares a monthly dividend of \$0.0750 per share. The dividend is payable Nov. 30, 2012, to shareholders of record at the close of business on Nov. 16, 2012. The ex-dividend date will be Nov. 14, 2012.

The Fund's primary investment objective is to seek current income, with a secondary objective of capital appreciation. The Fund invests globally in dividend-paying or income-generating securities across multiple asset classes, including but not limited to: equity securities of large, well-established companies, securities issued by real estate companies (including real estate investment trusts and real estate industry operating companies), debt securities (such as government bonds, investment grade and high risk, high yield corporate bonds, and convertible bonds), and emerging market securities. The Fund also utilizes enhanced income strategies by engaging in dividend capture trading, option overwriting, and realization of gains on the sale of securities, dividend growth, and currency forwards.

Under normal market conditions, the Fund will invest: (1) at most 60% of its net assets in securities of U.S. issuers; and (2) at least 40% of its net assets in securities of non-U.S. issuers, unless market conditions are not deemed favorable by the Manager, in which case, the Fund would invest at least 30% of its net assets in securities of non-U.S. issuers. In addition, the Fund utilizes leveraging techniques in an attempt to obtain higher return for the Fund. There is no assurance that the Fund will achieve its investment objectives.

The Fund has implemented a managed distribution policy. Under the policy, the Fund is managed with a goal of generating as much of the distribution as possible from net investment income and short-term capital gains. The balance of the distribution will then come from long-term capital gains to the extent permitted, and if necessary, a return of capital. Even though the Fund may realize current year capital gains, such gains may be offset, in whole or in part, by the Fund's capital loss carryovers from prior years. For federal income tax purposes, the effect of such capital loss carryovers may be to convert (to the extent of such current year gains) what would otherwise be returns of capital into distributions taxable as ordinary income. The use of such capital loss carryovers in this circumstance may produce no tax benefit for shareholders, and the capital loss carryovers available to offset future capital gains of the Fund will be reduced. Under the Regulated Investment Company Modernization Act of 2010, this tax effect attributable to the Fund's capital loss carryovers (the conversion of returns of capital into distributions taxable as ordinary income) will no longer apply to net capital losses of the Fund arising in Fund tax years beginning after Nov. 30, 2011. The actual determination of the source of the Fund's distributions can be made only at year-end. Shareholders should receive written

notification regarding the actual components and tax treatments of all Fund distributions for the calendar year 2012 in early 2013.
